2. The following is an examiner’s statement of reasons for allowance: Taylor (US#432254) represents the closest prior art of record. Moreover, mail (n) is inserted through aperture (a) of door (A) which indirectly causes face-plate (c) to rotate about rod (c’) to define a mail collection area. However, the upturned edges of the plate (c) do not structurally or functionally constitute the claimed side plates of claims 1, 2, 8, and 9. It would not have been obvious to one of ordinary skill in the art to modify Taylor to include the side plates as claimed in detail. Claims 1, 2, 8, and 9, are allowable for at least this reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
